[johanan.idicula@mail.mcgill.ca](mailto:johanan.idicula@mail.mcgill.ca)  
[jidicula.github.io](http://jidicula.github.io)

I'm a 4th year [Anatomy and Cell Biology](#) student at McGill University in Montréal, Québec. I'm also an undergraduate research assistant at the [Biological and Active Materials Lab](#) under the supervision of Professor Allen J. Ehrlicher in the McGill Department of Bioengineering.

## Research Interests

---

Cell Mechanics, [Mechanotransduction](#), Gene Editing via CRISPR, ACTN4, Quantitative Imaging, Image Processing

## Lab Skills

---

[Microcontact Printing](#), Quantitative Confocal Microscopy, Mammalian Cell Culture, Plasmid Purification, Bacterial Cell Culture, Traction Force Microscopy

## Languages I know

---

**Programming:** Python, MATLAB, Bash, Java, R

**Markup:** HTML, CSS, LaTeX

**Natural:** French (conversational and basic reading)

## Tools I Use

---

Git, TravisCI, Emacs, Eclipse, Atom, FIJI, scikit-image

## **Other Skills**

---

Strong writing and critical thinking

Careful attention to detail

Excellent proofreading and editing

## **Web Design**

---

[MACSS](#)

[Sarina Lalla's E-portfolio](#)

## **Education**

---

### **B.Sc. Anatomy and Cell Biology**

McGill University: *2014 – 2018*

J.W. McConnell Entrance Scholarship

### **International Baccalaureate Diploma Programme**

Colonel Gray High School: *2011 – 2014*
