MACSS SCHOLARSHIPS

This application form must be received in **hard copy** at the MACSS office in the Strathcona Anatomy & Dentistry Building by **1:30pm on Friday, March 10th, 2017**. If the office is closed, please slip the application under the door. Late applications will **NOT** be accepted. Only those applicants selected to continue forward to the interview stage will be contacted. Only full-time students in the Liberal, Major, or Honours Anatomy Program are eligible to apply. Executive members of the McGill Anatomy & Cell Biology Student's Society (MACSS) and the Science Undergraduate Society (SUS) are not eligible to apply. **Previous recipients of the scholarship are NOT eligible to apply.**

About the Scholarship:

MACSS is proud to present our scholarship in which **three \$400 Scholarships** will be awarded to one Anatomy and Cell Biology student in each U1, U2, and U3. The application process is competition-based, aimed at recognizing and promoting student extracurricular involvement and achievement.

About the Application:

These scholarships are intended to recognize students who demonstrate exceptional character and commitment in an extracurricular environment. Extracurricular activities will be defined as commitments not required by your academic program and not compensated monetarily (i.e. employment). The monetary value of these scholarships is intended to encourage the recipients to continue involvement during the school year without worry of financial implications. The awardees will be chosen based on a convincing display of attributes such as, but not limited to, leadership, community advocacy, service ethic, work with specific populations/minorities, and an overall passion for their extracurricular endeavors. Please keep these in mind when responding to the following questions. Responses to each question **must be under 150 words, typed, and attached to this identification form.**

- 1) What extracurricular activities are you involved in, and why are you passionate about them?
- 2) How have you contributed positive change to the organization through your involvement?
- 3) How have you contributed positive change to the community through your involvement?
- 4) Describe one highlight of your involvement within a specific activity.
- 5) Describe one challenge you continue to face within a specific activity.
- 6) List any other information about your extracurricular involvement pertaining to this application.

Please note that **your student number is the only identification to be included on ANY submitted materials**. This is to reduce the possibility of bias in the selection process. Those selected to continue will be identified via their student number, which will be verified for MACSS by Student Affairs. Rest assured that NO other information (grades, etc.) will be granted to MACSS during this process.
